

Allgemein

How do I include the guestbook in my site?

Please proceed as follows:

1. Log in to the customer center and select the correct contract.
2. Click on "guestbook" and create a new guestbook if not already existing.
3. Click on the DISPLAY button, a new window opens up.
4. There are displayed three ways of incorporation into your site. For our incorporation we choose the third way which looks as follows:

```
<a href="http://cgiscripts.kundencontroller.de/gb2/?web_id=hZ768HG82U" target="_blank">To the guestbook</a>
```

Copy the link from this statement for the guestbook:

This reads as follows:

```
http://cgiscripts.kundencontroller.de/gb2/?web_id=hZ768HG82U
```

5. Set this link as target in your HTML. This is generally possible both for pictures (when clicked) and text.

More detailed information regarding this subject can be found under: [SelfHTML](#)
