

# Confixx

## How do I access the Confixx admin panel ?

You reach the admin panel under <http://YOURSERVERNAME/admin/>

Instead of YOURSERVERNAME enter the name of your server (which can also be seen in the customer center).

As login data you use the following:

User: admin

Password: Your default password from the customer center

Unique solution ID: #1337

Author: EUserv Support

Last update: 2012-07-13 15:43
