Thunderbird

How do I set up my eMail account under Mozilla Thunderbird 1.0 ?

Mozilla Thunderbird 1.0

When setting up Mozilla Thunderbird 1.0 for the first time you are supported by an Account Wizard.

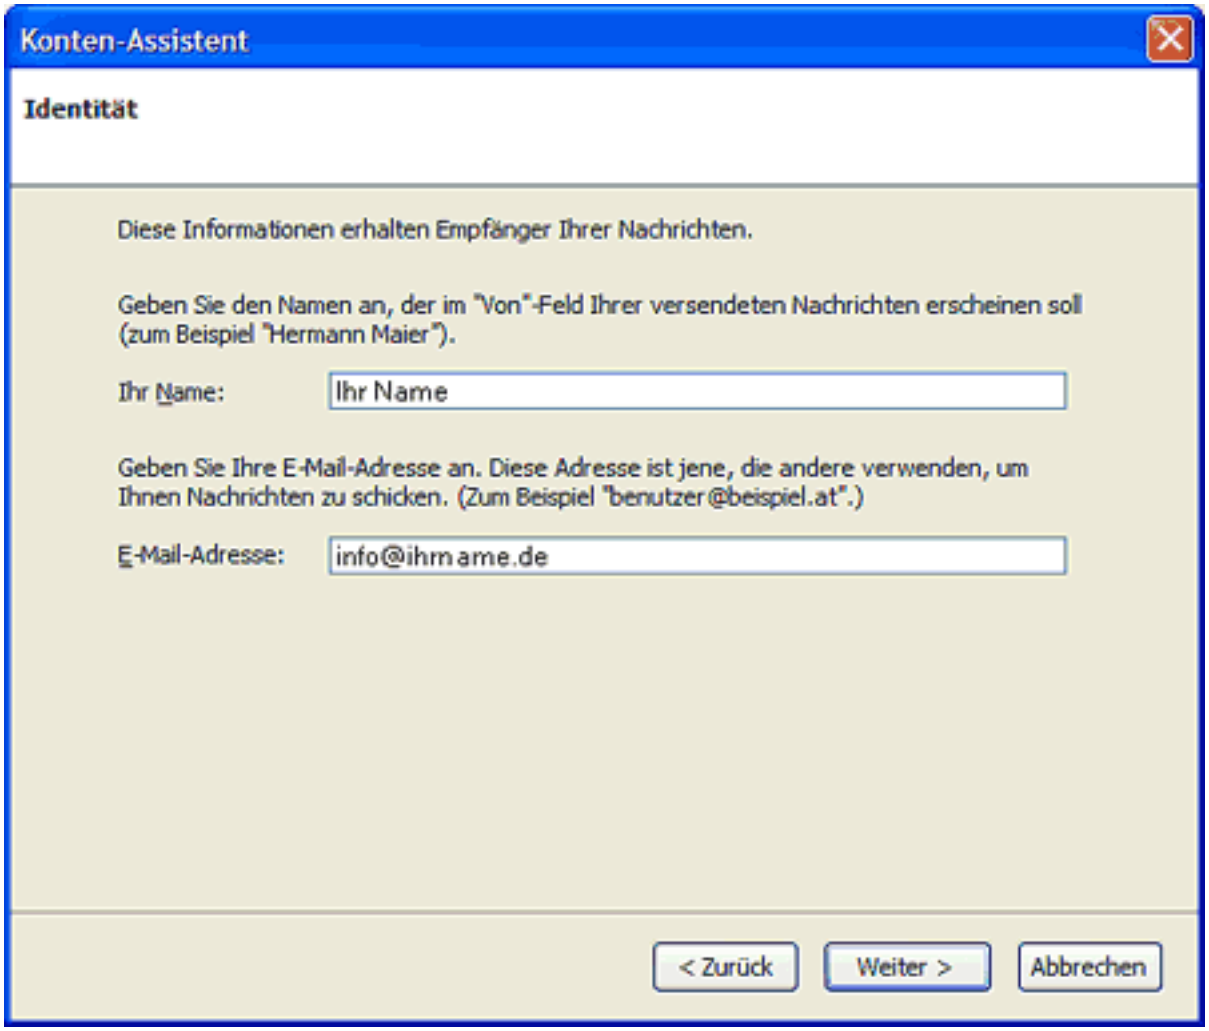

To receive eMails you have to create an **E-Mail Account**.

If you want to add another eMail account later you have to start the Wizard manually. Click "File > New > Account..." and the Account Wizard will be started.

Please click the "**Next >**" button.

Enter your name into the field "**Your name**".
Enter your eMail address into the field "**E-Mail address**".

Click "**Next >**" to proceed.

Thunderbird

To retrieve your eMails from our server you will need a "**POP3**" connection.
Enter the server name of you eMail provider in the fields "**Incoming mail server**" and "**Outgoing mail server (SMTP)**".

Please click the "**Next >**" button.

Your eMail account has been set up and is ready to retrieve and send eMails.
Check the "**Get Mails now**" box to receive your eMails instantly.

Please click the **"Finish**" button.

When receiving eMails for the first time enter your password into the password field.
You should only check the "**Use Password Manager...**" box when you are the only user of the PC.

Confirm your input with "**OK**".
